- **Background to the Commission**
- **CITB Proposal**
- **Timetable**
- **Award Criteria**
- **Delta**
- **Guidance**
- **Questions**

Background to the Commission

- There is a need to provide training opportunities for supervisors and installers in the rainscreen façade systems sector, arising from the Grenfell Inquiry.
- There is also a requirement to provide clear pathways and training standards for upskilling installers across a range of functions.
- CITB research and previous NFRC pilots evidences shortages of workers in this field and an additional demand for 1,000 specialist workers in this field per year.
- CITB are seeking to support training providers to deliver rainscreen façade systems training programmes to operatives and supervisors to help to tackle the skills gaps in rainscreen façade systems training.

- Budget £150,000 over 2 years
- Rainscreen Façade Systems providers to deliver:
 - Four short duration Rainscreen Façade Systems courses to 60 Rainscreen Façade Systems Installers
 - Rainscreen Façade Systems Upskilling Course to 24 Rainscreen Façade Systems Supervisors
 - To include materials and associated management and delivery costs
 - To cover England, Scotland and Wales

- **Rainscreen Façade Systems installers** (four short duration courses, each six hours long):
 - Inspection of backing walls
 - Installation of carrier systems
 - Installation of cavity barriers
 - Installation of the rainscreen façade system
- **Rainscreen Façade Systems Supervisors** (Rainscreen Façade Systems Upskilling Course):
 - What is a rainscreen façade?
 - The legislation relevant to the installation of a rainscreen façade system in accordance with the Building Safety Act.
 - The characteristics and purpose of the component parts of a rainscreen façade system
 - Identification, recording, reporting and rectification of installation defects.

CITB Proposal

- Looking for one or more providers to cover the geographic spread.
- Providers with existing relationships in the sector.
- Qualified trainers with demonstrable experience to deliver these courses (must have access to trainers).
- Trainers must satisfy CITB standards.
- Robust quality assurance processes in place, for example CITB Approved Training Organisations (ATOs).
- The tender will include costs for materials and equipment required for the training delivery.
- For delivery in Wales, Welsh translations must be provided.
