

SVQ SCQF Level 5 work based assessment

Induction Workshop

The Workshop provides the opportunity for those with considerable skills and experience but no formal qualifications who work in a relevant construction occupational area to gain an SVQ SCQF Level 5 qualification by demonstrating their competence through evidence from their day-to-day work.

What's involved?

For this qualification delegates will need to attend a half day workshop at NCC Inchinnan, which will take them through:

- Our organisation and how we provide support throughout the programme
- The qualification they are working towards
- Assessment route and methods (designed to suite the individual)
- The people involved in the process
- How evidence of competency will be collected and recorded

After attending the half day workshop, delegates will know how to collect evidence while working on site, how to record it, and who to contact if they require additional support. On completion of a 'work based portfolio' delegates will be assessed by a combination of observation, professional discussion and employer validation appropriate to their experience.

Who should attend?

This programme is designed for those who work in the following construction occupations:

The Construction Occupations SCQF Level 5 (QCF Level 2) available are:	Relevant CITB Health & Safety Test for CSCS Application
• Ceiling Fixing	Working at Height
• Dry Lining – Fixing	Working at Height
• Dry Lining - Finishing (Ames taping)	Working at Height
• Waterproof Membrane Roofing Systems – Reinforced Bitumen Membrane Roofing (Built up Felt Roofing)	Working at Height
• Waterproof Membrane Roofing Systems – Single Ply Membrane Roofing	Working at Height
• Cladding Occupations – Roof Sheeting and Cladding	Working at Height
• General Construction	Operative
• Road Building and Maintenance	Operative

What does the delegate gain?

Once the delegate has met all the assessment criteria and been signed off by your assessor they will be awarded an **SVQ Level 5 Award** (QCF Level 2).

The next steps.

Your SVQ Certificate will enable you to apply for a blue operatives card. You must have also passed the Relevant CITB health and safety test within two years of application. You are responsible for applying for the relevant CSCS card but we will provide information, advice and guidance on how to apply.

Achievement of this qualification provides opportunities to progress to technical, supervisory and management qualifications.
