Incumbent Supplier	Microsoft (Azure) Via SSCL outsource partner	GTT	Fournet for Avaya	Fournet for Avaya (Legacy)	Microsoft	Vodafone	SoftCat (Licensing)
Contract Title	Enabling partner agreement	Connectivity & Wan	Telephone Maintenance & Hardware Support	Telephone maintenance & hardware support	Microsoft Licencing	Mobile Telephony	Licencing Adobe
Contract Description	CITB is undertaking a transformation programme which will substantially transform the way it supports the construction sector within Great Britain. A key element of this change programme is the appointment of an enabling partner to support the transformation programme and deliver a variety of back office services currently provided in-house enabling CITB to focus on its core purpose. These back office services include but are not limited to finance and payroll, business improvement, human resources procurement and customer operations including customer contact centre and apprenticeship learner support and administration.	n/a*	n/a*	n/a*	n/a*	n/a*	n/a*

\*n/a - these contracts originally formed part of the tender to procure an Enabling Partner for CITB (Link above). However as this project evolved these additional services were either procured by SSCL on our behalf or the original contracts were extended. As these contracts expire these will be procured via our normal processes. Details of future contracts can be found on the following websites:-
